WELCOME TO TVR

The Vanilla Room
hair

Whether it's your first visit, or you have been with us on our 30-year journey, we are so looking forward to seeing you and taking care of your hair in 2027.

This season, the team's still hair colour obsessed - colour is where we do our best work, and we love helping you understand what's possible for your hair.

Our Bespoke Colour service combines multiple colouring techniques, tailored specifically to you, for results that go beyond a classic full-head colour or highlights. It's become one of the ways we love to work, and it means every colour plan is genuinely personal.

And behind every colour service, our smart scale colour bar precisely weighs and records your formulation on your client card - so your colour stays consistent, personal to you, and nothing goes to waste.

This year also marks a new chapter for us. The Vanilla Room is now employee owned. For us, that's not a change in why we do this - it's always been about the hair - but it does mean the whole team is now personally invested in its future, so this salon, and the people who care for your hair, are built to last.

Explore our price list to discover the latest bonding services, advanced colour technology, bespoke services and more. Enjoy, and we'll see you in the chair!

Love, Kerry and the TVR team x

We answer your most frequently asked colour questions

Q ***I love the cool tones on Instagram, but my hair does not stay cool, why?***

A Social media is a fabulous place to explore your future shades. However, watch out for the colour filters applied to some images.

Before setting your heart on 'cool mushroom blonde' think – have you seen this on real hair walking down the street? If the answer is no, it is highly likely the photo has been altered. Cool tones are hard to keep and warmth will start to shine through with time because when you change your natural hair colouring the result reveals a warm undertone.

Warmth is not the enemy. As a child you may remember sunkissed highlights in the summer that suited your skin tones perfectly. For most people, honey, caramel and bronze are far more complimentary and achievable at any age.

LETS TALK HAIR COLOUR TRENDS

Do you know your shades from your techniques?

Insider Info: Balayage is a technique not a colour!

BALAYAGE is a French term that translates to "to sweep or to paint". This isn't a hair colour. It's a freehand technique that creates soft, natural-looking highlights - much like the effect of the sun. The results typically lean toward warmer tones.

FOILAYAGE is a balayage technique applied in foils to separate the surrounding hair to create more extreme contrasts.

Colourists use **OMBRE**, **ROOT DRAG**, **COLOURMELTS** and **BACKCOMBING** techniques to create a seamless transition from one shade to the next down the hair's length. They don't appear on any shade chart, and the combination of colours that can be used is virtually limitless.

BABYLIGHTS are ultra-fine highlights around the hairline. When Babylights are applied evenly throughout the hair, results are natural looking. As soon as this technique is applied to the entire head with a large number of foils "Back to Back" the results are anything but subtle!

Unsure? Let us help you...

For clients seeking more than just a classic full-head colour or highlights, we offer a customised approach. We combine various techniques, with each colour placement tailored specifically to your hair.

To meet your unique needs, we've created a special 'Bespoke Colour' service menu, allowing us to personalise techniques just for you.

To avoid getting confused with internet research, show us pictures of colours you'd love to wear and we'll suggest the techniques to get you there. This is what we are trained in, so you're in safe hands!

LATEST TECHNOLOGY!

SMART SCALE COLOUR BAR

Every time we mix your custom hair colour, we use a smart scale system that measures every gram and automatically records the formulation precisely on your record card.

When we finish your colour application, the colourist re-weighs the bowls and calculates any residual product, which is automatically adjusted on your record card, making our applications even more precise and personal to you. Plus, there's the added benefit of protecting the environment by reducing the waste that goes down the sink and into our waterways.

At times, achieving your desired look may require more colour than what's included in the standard service price. In these cases, you'll only be charged for the additional amount of colour used - never for extra labour. This transparent pricing policy ensures you know exactly what you're paying for, with no surprises.

YOUR BESPOKE COLOUR JOURNEY

Colour Consultation
Your hair's history and condition, as well as your skin tone, lifestyle and the overall look you hope to achieve is discussed. This is the perfect time to share lots of pictures, and tell us everything! Your chosen stylist will then advise on any potential challenges and recommend suitable colour and condition enhancing techniques to ensure your new hair colour will suit both you and the haircut you're wearing. (Free of charge)

Personal Service
Your personal stylist will create your tailored colour journey plan. Helping you to understand how many visits it might take to achieve your new look, how much it will cost and how often your new colour will require maintenance.

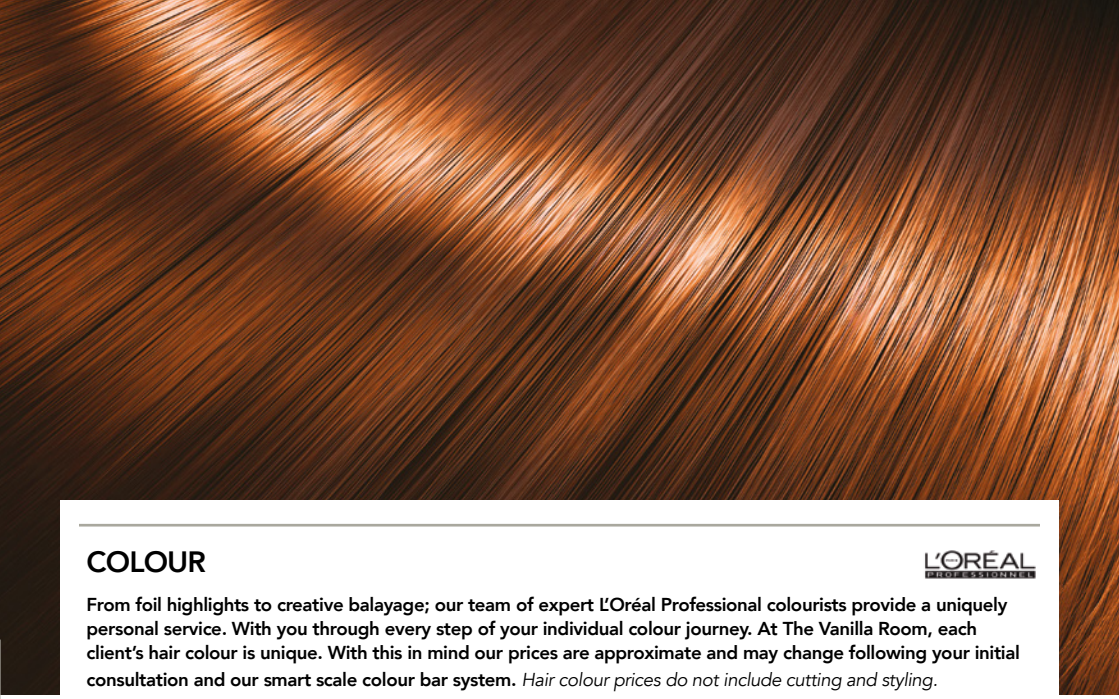

Hair and Allergy Testing
We don't allow guess work when it comes to colour. So, we may require you to have a hair-history strand test before colour work begins. You will be required to have an allergy alert skin test before you start your colour journey with us. Our preferred method is a Colourstart patch test. Colourstart details are available at the back of this price list.

Prestige Colour Brands
When your desired result requires something a bit special, we can rely on the advanced features of our premium hair colour brands. From Ammonia free lamination as an alternative for clients with allergic reactions to oxidative hair colour or PPd, or the exceptional strength and shine offered by lightening agents with built-in bonder, we'll use our technical know-how to produce a bespoke formulation in pastels, natural or vivid shades. Prestige brands add a little extra £'s on our smart scales, but for those who need it, they are a life saver and so worth it.

FOR COLOUR 'Style Matters'

If you're drawn to photographs of hair colour on wavy hair but mainly wear your hair straight, you should be aware that hair colour appears extremely different when styled with movement and this may not be suited for the way you wear your everyday hair.

BESPOKE COLOUR @ TVR

Bespoke Colour is our service name for multiple colouring techniques that are required to create the look you want. It is a bespoke and personal application tailored to your hair and style.

An initial consultation visit is required, where your Stylist will create a colour quotation based on the length of time it will take to apply your custom colour techniques on the day, and for any additional stages such as toning, re-bonding, cutting and styling - as required. Our colour consultations are always complimentary.

With Bespoke Colour, you pay for our time and expertise. If your hybrid colour techniques take us a while longer to apply on the day, we won't charge you more than for the time quoted. In addition, our smart scale colour bar system ensures that additional colour product charges are only generated if the amount of colour product required to create your look exceeds the amount automatically included in your Bespoke Colour service price level.

Bespoke Colour can be a journey. The look you want may not be achievable in just one visit, taking time to build up the required level of colour or lift over several applications in order to achieve your colour goal. Your individual colour journey plan will be created by your personal Stylist, helping you to understand the number of visits necessary to achieve your desired look, cost, and frequency of maintenance.

Bespoke 60mins	from £158.00

Suited to those who are already wearing multiple colouring techniques created at The Vanilla Room and require a maintenance service to bring back the colour to its absolute best.

Bespoke Level 1	from £191.00

For less is more looks, and subtle results. Ideal for when your current bespoke colour is ready for a refresh. Suited for chin to collar length hair or shoulder length finer hair types.

Bespoke Level 2	from £224.00

For more concentrated colour and defined placement on medium length and dense hair. When your chosen colour requires a bit more colour product and your colourist requires a bit more application time to achieve your hair colour goals.

Bespoke Level 3	from £290.00

Bespoke Colour techniques on thicker, longer hair, or full-head of 'back to back' babylights for maximum impact. Great colour takes time to achieve and can take multiple stages, so expect to spend several hours with your colourist for a Bespoke Level 3 application. More hair, more time, and more bowls of colour are required to achieve the desired look.

Toners

On day of Bespoke Colour, Foiling or Roots	from £46.00
Toner Refresh Application	from £62.00

ASK THE COLOUR SPECIALIST

We answer your most frequently asked colour questions

Q ***How do I look after my blonde hair?***

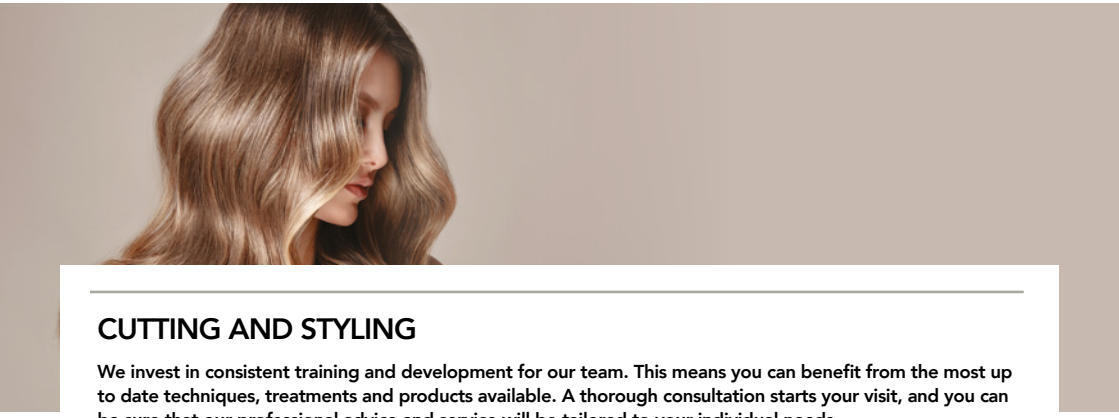

A The first step in creating a healthy-looking blonde is by adding a rebonding service on application day, to ensure you can achieve any shade without sacrificing hair quality.

Pale blondes absorb pollution, to keep bright - shampoo regularly. Lightened hair is more prone to heat damage during styling, making it appear dull and lacklustre, so the importance of using the correct haircare should not be overlooked.

Our favourite is Keune's Blonde Savior range. A powerhouse against bleach damage, making hair 7x stronger with 96% less breakage. The shampoo, light weight mask and leave-in heat protection crème, repairs and strengthens from the inside out, delivering instant moisture for that wow-factor look - everything a healthy blonde needs.

And finally, be gentle when you comb or brush your blonde tresses - treat it like the hair investment it is.

HAIR ENHANCEMENT

CAPTURE MORE HAIR WITH OUR SUBTLE HAIR FILLERS SERVICE

Have you ever desired just a little more from your hair?

Hair fillers are a kind of discreet hair extension, using small amounts of real hair in specific areas to 'fill in' where more density is desired. The end result is super subtle yet really impactful, so natural no one will guess it's not 100% yours.

We have partnered with Great Lengths the world leader in premium quality, ethically sourced hair enhancement. For hair fillers there is a choice of application methods – re-useable tapes which require a maintenance appointment every 6 weeks or individual Keratin bonds which last 3 – 4+ months and will simply grow down with your style, no need to visit us for any maintenance appointments.

Guide price	***Hair filler inc home care***
Keratin bonds, cold fusion application	from 350.00 - 535.00
Tapes	from 240.00 - 340.00

Hair fillers are a bespoke service, colour matched to you and your hairs density and length. Your quote includes the Great Lengths homecare products to ensure your extensions will be kept at their best.

LUXURY LENGTH

If you crave longer hair, our Great Lengths certified Stylists can create a full head solution perfect for you, whatever your vision.

Guide Price	*Luxury Lengthening inc home care*
Keratin bonds, cold fusion application	from 900.00 - 1195.00
Tapes	from 785.00 - 955.00

This includes initial consultation appointment, application on the day, full kit of Great Lengths homecare products and a check-up appointment 2-3 weeks after application (should this be required).

INDEPENDENT ROOMS

A private space for you and your Stylist

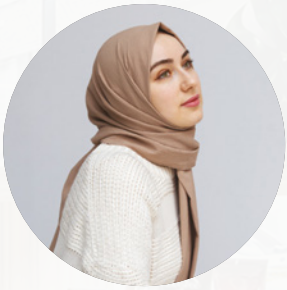

Perfect if you'd like a quiet space to work or relax, tucked discreetly away from the buzz of the salon floor.

We understand that not everyone will feel comfortable in a salon environment, and that sometimes you may appreciate a little extra privacy or quiet time.

Upstairs in the salon, each room has it's own basin for an exclusive experience. You can choose to have the door open or closed and we even offer **silent appointments** for those who would prefer not to chat.

Our private rooms are ideal for clients experiencing hair loss or those requiring additional hair from our Capture hair clinic. With services carried out by one Stylist and one assistant, we also cater to women who wear head coverings and require a **female only space** throughout their appointment.

Available to reserve via 01708 452245
Please mention female exclusivity when booking.

Unfortunately, the rooms cannot be secured for private use via our on-line booking system. Time based booking fees may apply

HAIR COLOUR ALLERGY ALERT TESTING

colourstart

We test because we care.

At The Vanilla Room, before we colour your hair, you will need to have an Allergy Alert Test. Our preferred method is a Colourstart patch test.

What is Colourstart?

Colourstart is a one-time patch test you can do at home, at your convenience. Once you share the results with us, it gives us the freedom to use any shades and brands during your visits. It's the gold standard for testing allergies to PPD, an ingredient in hair colourants that some people may be allergic to.

By using Colourstart, you create a "hair colour passport," which is especially practical for clients with multiple shades in their hair. To keep your Colourstart passport valid, simply answer a few questions before each appointment via the Colourstart app or website. No more in-salon patch tests! It's a one-time purchase for a lifetime of hair colour safety.

Is there an alternative option?

Yes, the 'live' in-salon Allergy Alert Test method, performed every 6 months with each shade needing to be tested at separate visits. For this method, you are required to attend the salon and have a small amount of your chosen shade applied to your forearm, which will be left on for 45 minutes. The downside to this, is that it takes time to do and involves visiting the salon more often.

For more information on Colourstart, just scan this QR code :

Advice: Our advice is free, so please drop in and tell us your hair concerns, we are happy to share our professional knowledge and give you solutions.

Gift Vouchers: Gift vouchers for any value can be purchased from reception, by telephone or online from our website.

I'm Unhappy: We want you to enjoy your experience with us. If you are not completely satisfied with your service, we are happy to work with you until you are. Just give us a call within a week of your visit and we will arrange a time to make you happy.

Cancellations: As a courtesy to other clients, 48 hours notice of cancellation is required. Should you need to change your appointment please let us know as soon as possible so we can offer your booking to others.

Late Arrival: Please arrive promptly for your appointment; we want you to be relaxed for your experience with us. We are sorry, late arrival may result in a reduction of treatment time or change of team member.

Free Roam Salon: Please feel free to change your stylist whenever you wish. We are all part of the same team and hope clients feel comfortable to try other stylists within the salon.

Product Returns: If you change your mind about your purchase, please return the items in unused, unopened packaging to us with the original till receipt within 14 days and we will offer you an exchange or a credit note. This does not affect your usual consumer rights, including your right to claim a refund, replacement, repair and/or compensation where the goods are faulty.

Deposits and time based booking fees: New clients are required to pay a booking fee to secure their appointment. This will be deducted on day of appointment and is refundable when over 48 hours notice of cancellation is given. Booking fees for Independent hairdressing rooms may apply.
